# 03 PAGES

All scrapbooks contain approximately 80 pages. As much as I would love to fill all 80 pages for you, it likely isn't realistic with the amount of photos from a photo session (full day weddings may be a different story but we can discuss that separately).

Instead I have three different offers for the amount of pages that will be designed when you receive your book.

Leaving blank pages allows for future sessions and adventures to be documented.

10 PAGES

15 PAGES +\$40

20 PAGES +\$80

25 PAGES +\$120

There are a variety of ways I enjoy putting together each page. I tend to focus on a collage style designs with cut-outs of certain photos and details that paint a picture of the session or experience.

There are however some design options I want people to have a choice with and that is color!

I know some people love bold pops of color and fun little scrapbook bits such as dried flowers, stickers, etc.

There are also those who may enjoy a more minimal and simple design with softer color tones + less embellishments.

Let me know what aligns best with your photos and YOU!
